17 February 2016

Dear Parents/Guardian of P1 Students,

National Library Board – Raising Readers Toolkit (Lower Primary)

Learning to read, enjoy, respond to and understand critically a variety of texts will help build students' language. It will enable them to derive meaning from print and nonprint texts. It will also help them to progressively achieve fluency in reading and viewing in order to learn in the content areas. Cultivating these habits at a young age is crucial as early literacy lays the foundation for the development of comprehension and communication skills.

2. With that in mind, we are distributing a booklet provided by National Library Board (NLB) to parents to support them in guiding their children to becoming avid readers. The booklet itself encompasses the importance of reading, how to choose the right books for their child, resources for parents and how to make use of the resources provided at NLB. The information provided comes in the 4 various languages.

3. NLB has also issued a 2016 calendar which provides links to websites that are useful to parents in seeking for resources online.

4. We hope that you find resources in the toolkit provided valuable. If you have any queries, please contact Mrs April Noble at 6443 0380.

Yours sincerely,

Mrs Jenny Leong
Principal
