To Parents from Red Swastika School

Dear Parents,

KooBits ProblemSums

The school has purchased a self-directed Maths training programme **KooBits ProblemSums** as an additional learning resource for your child. This system is designed to help your child progress from a learner to a master of problem solving and heuristics skills.

Developed by a group of passionate educators and curriculum experts, KooBits ProblemSums offers the following learning benefits:

- More than 80,000 problem sums with detailed solutions
- Official questions from past SMOPS & APMOPS Maths Olympiad (in collaboration with HCI, partial proceeds go towards helping needy Singaporean children)
- Intelligently addressing the child's weaknesses in maths through individually customised maths questions
- Engaging maths challenges and other fun maths activities to motivate the child
- Parents can assign homework to the child and monitor progress through reports
 - log in the child's account
 - click Parent Register on left to register for new homework email notification
 - click My Report on left to monitor performance and skill proficiency
- Accessible anywhere anytime on PC, Mac, iPad, Android or Windows tablets with Internet connection.

Your child will be able to do self practice, homework, mock exams, tests and get engaged via peer challenges and fun activities to earn Challenge Points or KoKo Credits and win prizes through this portal. You may check rules in details at <http://bit.ly/koobitsrules2016>. Your child is encouraged to use it at home for independent and self-directed learning with immediate effect.

Please also find the login details below:

Login Address: <http://problemsums.koobits.com>

The Default ID and Password will be as below:

Login ID is RSS + last 5 digits and letter of BC, and password is same as login ID

For example:

Child BC number	Login ID	Password
T0123456D	RSS23456D	RSS23456D

Please feel free to contact us at 68732370 or support@koobits.com if you have any enquiries.

Thank you.
